

## 2015 MILITARY SPENDING BY COUNTRY

The Pentagon consumes nearly \$600 billion in taxpayer dollars each year, a sum equal to what the next 7 countries combined spend on their military forces. The Pentagon has also evaded the public accountability and audits that every other government agency is required to complete. In fact, the Pentagon's own internal study found \$125 billion dollars in waste, enough to fund the EPA for 15 years.
